

Fire alarm Møllevegen

All of the Saman student housing have a fire alarm system installed to alert the tenants in case of fire!

In Møllevegen ALL fire alarms are sent directly to the emergency central in Florø, so the fire department will be in place as soon as possible.

What to do if the alarm is activated:

1. Close all windows and doors.
2. Bring your key.
3. Go to the alarm panel, you'll find it outside the laundry in block 30.
4. Unlock the cabinet on the fire board with your key.
5. On the alarm panel you'll find information about where the alarm was activated.
6. Go to the location where the alarm was activated to check if there is a fire.

In case of fire:

7. Evacuate the building, extinguish if possible. (To turn on full alarm manual call.)
8. CALL THE FIREDEPARTMENT 110, let them know the location of

depress a
the fire.

Manual call

Viss det er ein falsk alarm:

7. CALL THE FIREDEPARTMENT 110, let them know it is a false alarm! If this is not done, the tenant responsible for the false alarm will be billed for the emergency response!
8. Go down to the alarm panel, put in the key and turn it. Hold in **Avstill klokke** until the alarm stops
9. Open windows and doors to air out the area where the alarm was activated.
10. When the area is properly aired out, hold in **Tilbakestill** until the light stops blinking. Take out the key.
11. Lock the cabinet in which the fire board is located.

Sabotage og the fire alarm system, covering or removal of detectors and alarms is a violation of your tenancy agreement and will lead to fees and possible eviction!
